

CANCER & ENVIRONMENT

Friday, November 14th, 2025
10:30 AM - 4:00 PM

Irving Cancer Research Center Auditorium & Zoom

[Register now](#)

Join the Herbert Irving Comprehensive Cancer Center at Columbia University Irving Medical Center and Silent Spring Institute for a one-day CME event on the state of the science of environmental carcinogenesis and the role physicians, nurses, and healthcare providers play in reducing risk from exposure to environmental chemicals.

Panel 1: What We Know about Environmental Exposures and: **Obstetrics & Gynecology and Pediatrics**

A review of evidence of environmental exposures with a focus on epidemiologic research of endocrine disrupting chemicals and their impact across the lifecourse.

Panel 2 | What We Know about Environmental Exposures and: **Primary Care & Internal Medicine**

Exploring approaches for addressing exposure to common carcinogens like air pollution and metals and how physicians can play a role in reducing patient exposures.

Panel 3 | How Cancer Care Providers Can Address Patient Concerns

This panel will focus on how providers can address patient concerns with accurate information and guide discussions about risk reduction, survivorship and long term health.
